

POSTER COMPETITION

Pupils can get creative and enter British Science Week's annual, UK-wide poster competition! They can make a poster about any 'Connections' that appear in the world of science they like, and be in with the chance of winning an array of prizes. Each school can enter the 5 best posters!

The British Science Week 2023 poster competition is now open!

Kit list

Paper (A4 or A3)

- Creative materials, such as:
- pens
 - pencils
 - scissors
 - glue
 - watercolours
 - paints
 - crayons
 - felt
 - thread
 - wool
 - foil
 - clay
 - string
 - beads
 - stamps
 - foam
 - pompoms

The theme this year is 'Connections'.

Think about ideas to include in your poster. You could investigate and imagine 'Connections' and everything that makes them special.

There are loads of STEM topics that could be explored! How about exploring how our body parts are all connected and work together, the connection between our actions and the impact on our environment, or even how internet connection has changed the world.

Connections are everywhere. From the friends we make who share new ideas, to the connection between eco-friendly behaviour and a better future, there is so much to see all around us.

Making the poster

Once you've done the thinking, it's time to get creative!

Posters must be A4 or A3 in size.

You can use pop-up pictures, pull out tabs or use materials such as pencils, paints, crayons and paper to create your posters.

Submitting the poster

Posters will be judged on creativity, how well they fit the theme and how well they have been made or drawn.

Once your poster is complete, bring it into school.

Deadline – Monday 27th March 2023.
