

Year 2

Autumn Term One Homework Project

The First Flight

It is time to get creative year 2. I would like you to use materials that you have at home to make one of the following:

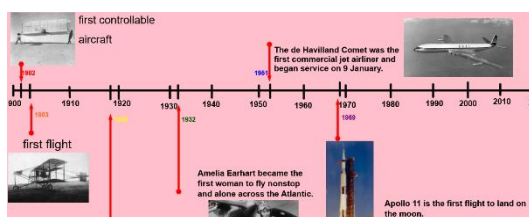

1. Make a model of an early aeroplane and explain how one would have been built.

2. Research one or more of the first flights (e.g. by the Wright Brothers or Amelia Earhart or Alcock and Brown) and create a poster about your findings.

3. Create a world timeline showing some of the different "First Flights" throughout history.

Or create your own idea as long as it is related to the First Flight.

I look forward to seeing your amazing projects by **Thursday 12th October.**
