

Year 2

Spring Term Two Homework Project

Where does food come from?

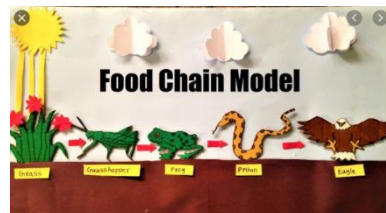

I am asking children to create a piece of work that thinks about where food comes from and what the main sources of food are.

It is time to get creative year 2. I would like you to use materials that you have at home to make one of the following:

1. Categorise food or create a world/UK map of where different food comes from. This could be completed using any materials you like: pencil crayon, paint, collage, chinks or felt tips.

2. Create a simple food chain. Again, this could be completed using any materials you like: pencil crayon, paint, collage, chinks or felt tips.

3. Do some cooking and then think about where the type of food or where each of the ingredients comes from.

I cannot wait to see all of your projects. Please hand them in by Friday 22nd March. Thank you.

Or create your own idea as long as it is related to where food comes from.
