Introduction

It is a requirement of the Health and Safety at Work Act 1974, that all employers employing more than five people, must prepare a written health and safety policy. The policy should contain:-

1. a statement of the philosophy relating to health and safety at work signed by the most senior person within the organisation. i.e. the Chair of the Governing Body;
2. details of the organisational structure i.e. who is responsible for what, and how they fit in with each other; and
3. details of the arrangements in place for putting that policy into practice e.g. first aid arrangements.

The law also requires the employer to ensure the health and safety policy is brought to the attention of all employees

A health and safety policy also demonstrates the employers commitment to health and safety issues and how those issues can be managed.

The policy must be reviewed on a regular basis, usually annually, to ensure that it is effective and adequate. Health and safety requirements may change due to changes in legislation or the introduction of new technology for example, and therefore the policy must be altered to accommodate the changes enabling them to be incorporated into the management system.

A model health and safety policy that may be adopted by schools is illustrated over the following pages. This model policy has been prepared by the Health and Safety

Team incorporating previous model policy data produced by the Occupational Health and Safety Unit. Contributions were also received from both Mather Street Infants School, Oldham and Crompton House C.E school, Oldham. The model closely follows the guidance leaflet entitled '*Stating Your Business – Guidance on preparing a health and safety policy document for small firms*', issued by the Health and Safety Executive (Leaflet ref: INDG324) and DfES guidance.

23.0 Medicines

Children who require support for medical conditions have the same rights of admission as other children. Children who have a disability which requires medical support are protected from discrimination by equalities legislation. Children with medical needs must be supported in school and can only be required to leave school for medical reasons if this is to receive emergency treatment or if their presence represents a serious risk to the health or safety of other children or school employees, for example if they are infectious. In these circumstances a head teacher/teacher in charge may send the pupil home after consultation with the pupil's parents. This would be an authorised absence not an exclusion. Detailed guidance is in DCSF Guidance 'Improving behaviour and attendance: guidance on exclusion from schools and PRU's, September 2008.

Children may require support for acute, short term and long term medical conditions. Acute conditions are for example severe asthma attacks or allergic reactions. Short term conditions are for example finishing a course of antibiotics. Long term conditions are for example controlled epilepsy, diabetes or asthma requiring daily use of an inhaler.

- The Headteacher will establish an effective management system which provides support to children with medical conditions.
- The Headteacher will communicate with parents, pupils and health professionals where necessary, for example in making an agreement to administer medicines or making a health care plan.
- The Headteacher will store medicines safely and where necessary provide training for personnel who administer or supervise administration of medicine.
